طول كتاب الطالب الوحدة السادسة Save the Earth

Now, read the story, tick ✓ or ✗, then underline the correct answer according to the story

- 1 Nasser is planting a flower in the garden.
- 2 Nasser is giving the trees food.
- 3 Brainy only needs food and drink to grow tall and strong.

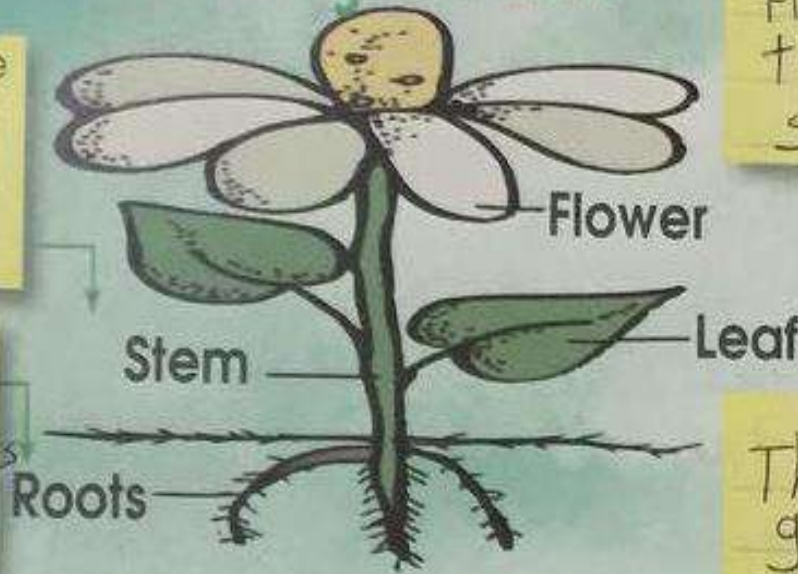

Read the story, then find the answers and write them below

- 1 Why are Sara and Nasser lucky?
To live in Kuwait because there are lots of trees
- 2 According to the story, who needs trees to live in?
Birds and animals.
- 3 What does Nasser give the trees to help them grow tall and strong?
He gives them soil (food) and water.

Parts of a Plant

The stem helps keep the plant standing and get water from the roots to the leaves.

The roots provide the stems and leaves with water

The flower helps the plant to produce seeds.

The leaves exchange gas. They make the plant's food, too.

Choose one part of a plant and write a paragraph of at least four sentences about it

Don't forget to check your spelling

There are four main parts of a plant. The roots are very important. They provide the stems and leaves with water. They also store food. They anchor the plant, too.

DID YOU
KNOW?

We eat different parts of plants. We eat seeds like peas, stems like celery, leaves like spinach, roots like potatoes and flowers like broccoli

With your partner, complete this chart about the parts of plants we eat

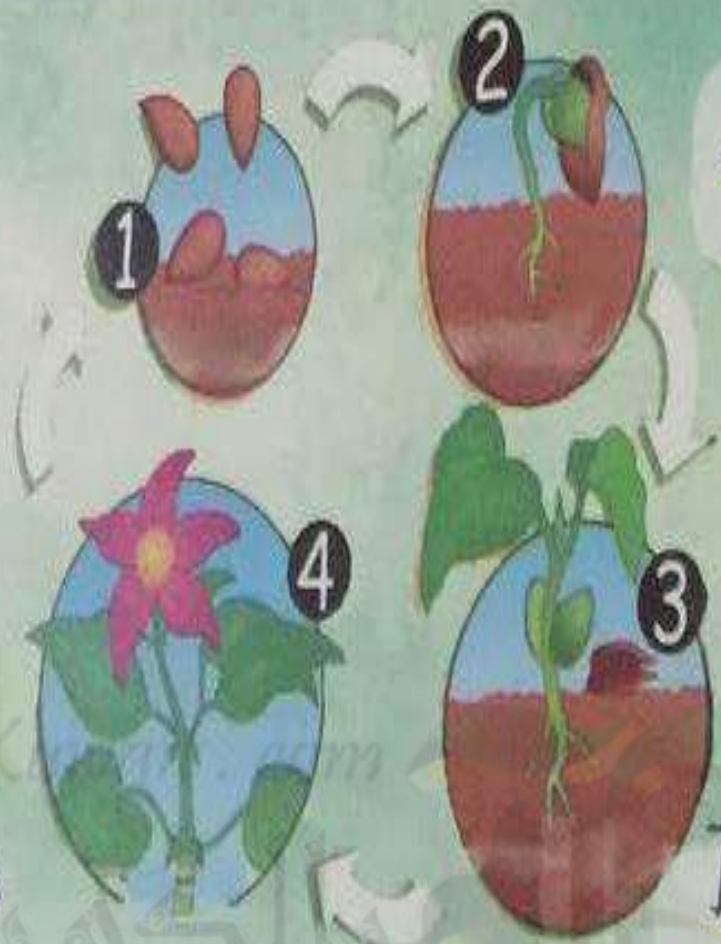

Flowers	Leaves	Stems	Roots
broccoli	spinach	celery	potatoes
tomatoes	lettuce	asparagus	Carrots
Cucumber	Cabbage	rhubarb	beets

- 1 The main idea of the text is
- a) the importance of trees b) animals' life in trees
 c) shade from trees d) healthy Earth
- 2 There are fewer trees now than in the past because people
- a) look after b) cut down c) water d) plant
- 3 One of the following sentences about trees is NOT TRUE
- a) Strong trees make the Earth healthy. b) We need trees for shade.
c) We can eat the fruit and nuts. d) We mustn't look after trees

Look at the pictures and ask your friends one question for each picture

What are you doing?

Where are they?

Why do animals need trees?

I'm planting a tree.

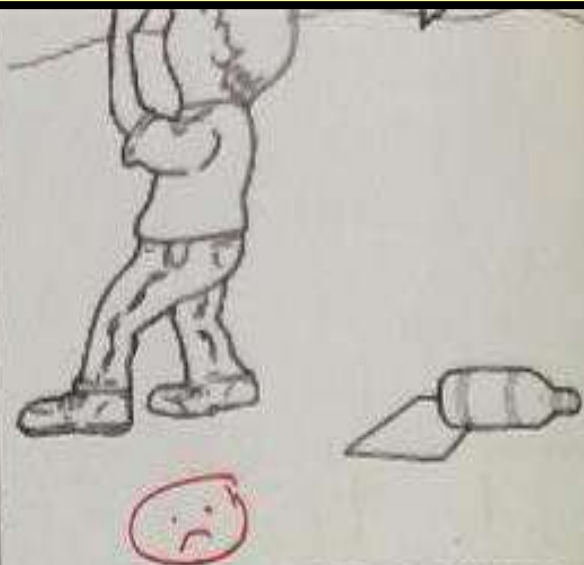

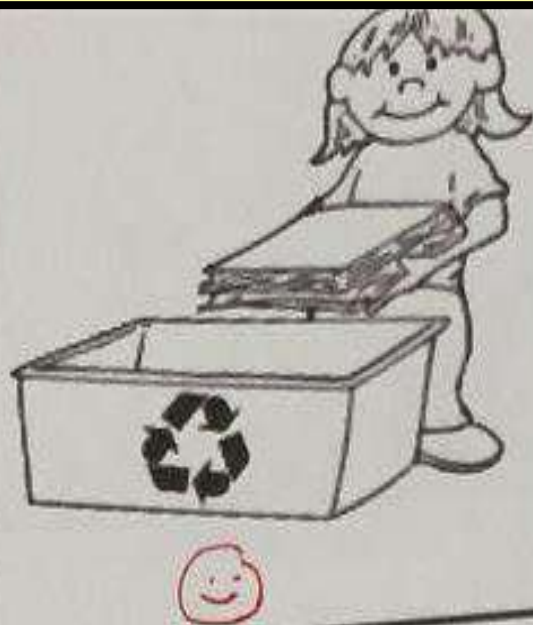

They are under the tree.

They need trees for homes.

Write a short paragraph about the importance of trees

Trees are important. They give us food, shade and fruits. Animal and birds need trees for their homes. It's good to plant trees.

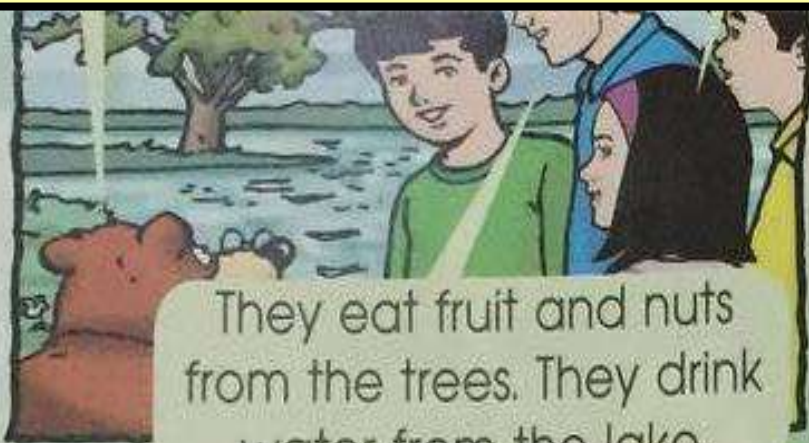

Write about things you can do to make the Earth a healthy place. The following phrases may help you (It's good to .../It's bad to)

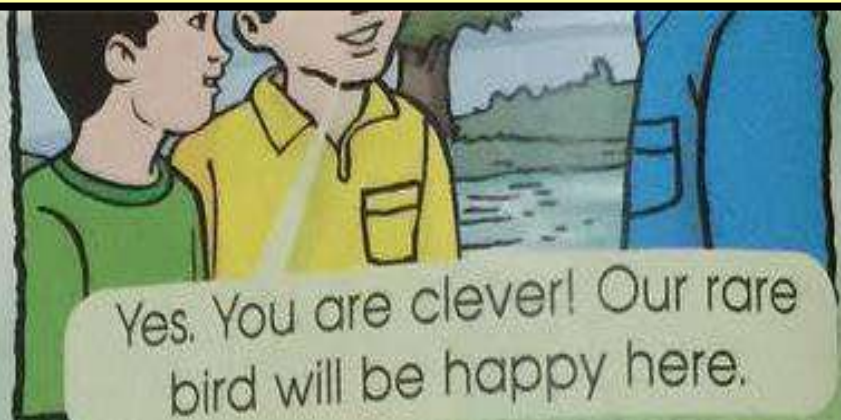

Don't forget to check your spelling

To make the Earth a healthy place, we have good things to do. It's good to plant trees. It's good to recycle old things. It's good to clean the place. We have bad things, we shouldn't do. It's bad to cut down trees. It's bad to throw rubbish on the ground. It's bad to use much water in brushing our teeth.

They eat fruit and nuts from the trees. They drink water from the lake.

Yes. You are clever! Our rare bird will be happy here.

1 What is the story about?

It's about "Rare birds".

2 Why did Nasser and Sami ask everyone to come to the garden?

To see the pretty bird.

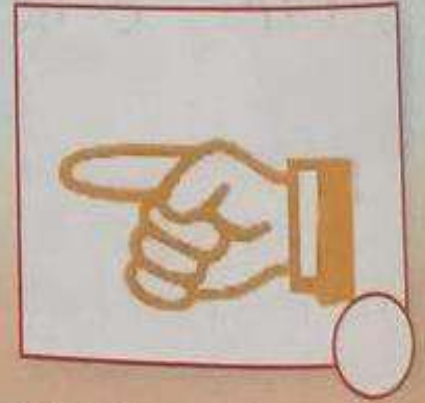

3 What will happen if they make noise?

The bird will fly.

4 Where will they take the rare bird and why?

To the Nature Park to live safely there.

Listen and write the correct number

Draw and describe an imaginary rare animal, give it a name then describe it to your friend

Example: "My rare animal has the mouth of a snake on the face of a

Sabah Al-Ahmad Natural Reserve is a nature park located in the north-east of Kuwait. It has a total area of 320 square kilometres. The natural reserve helps protect animals, birds and plants that are in danger. Animals and birds can live safely **there**. They can make homes and find food in the trees. They also can swim or drink water from the lake. When you see a rare bird, animal or plant you should phone the natural reserve.

1 Suggest a title for this passage

Sabah Al-Ahmed Natural Reserve.

2 How big is Sabah Al-Ahmad Natural Reserve?

It has a total area of 320 square kilometres.

3 What does the underlined word **there** refer to?

It refers to the Nature Reserve.

4 Why should we keep rare birds, animals and plants in natural reserves?

To live safely. / So as not to die out

Fill in the table with names of rare plants, animals and birds that you would like to see in Sabah Al Ahmad Natural Reserve

Plants	Animals	Birds
1. Dragon tree	1. Panda	1. Kakapo
2. Monkey puzzle tree	2. Crocodile	2. Quetzal

DID YOU KNOW?

Sabah Al-Ahmad Natural Reserve was opened in 2003 and it has 380 rare plants and 151 rare birds

(should-shouldn't)

The following key words may help you

X touch it - X frighten it - ✓ take a photo - ✓ look after - ✓ phone - ✓ the natural reserve

Read Sami's story and complete it using the list below

play - look after - should - is - when - feels - gets - give

Sami likes cats. He asked his father to get a cat. His father told him that When..... he gets..... the cat, he should look after it. When the cat is hungry, he should give..... it food and water. When the cat gets bored, he should play..... with it. When the cat gets sick, he should..... take it to the animal doctor.

Listen and number the correct picture, then say what each bird looks like

What does it look like?
